

'Viva Italia' Art Exhibition

HF Contemporary Art - are delighted to showcase a selection of outstanding Italian artists at the VI VA ITALIA Festival, as well as three other European artists whose artefacts represent Italian art and culture.

"..The young Italian artist ALESSANDRO RINALDI, born in 1974 in Bologna, enthralls art lovers and collectors alike on account of his unusual style and techniques, of a subtle fusion of metallic andameleon colours applied by hand and airbrush, giving the impression of a three-dimensional, visual impact. His particular form of artistic creation allows him to express basic human emotions as well as give his imagination free rein. He regularly shows his work in major exhibitions in Europe and the States."

Helga Fox, Ph.D., FIL, FRSA
