The end of the SciGuy blog ...

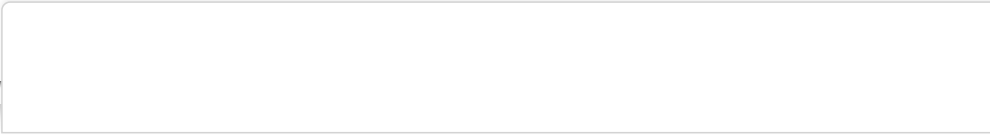

By Eric Berger on October 23, 2015 at 7:42 PM

Hey everyone, as you may know by now I am leaving the Chronicle to write about space for [Ars Technica](#).

It has been a wonderful 17 years at the Chronicle. I have written this blog for more than a decade, and for the most part it has been a labor of love. I have literally written thousands of posts and approved 100,000s of comments.

But all good things must come to an end. To keep track of my future endeavors be sure to follow me on [Facebook](#) or [Twitter](#).

I will be writing more about space and weather than ever.
