PATIENT	JEFFREY BODIN	DOCTOR	J. CRUZ, MD	DRUG DESCRIPTION
BIRTH DATE	05/22/97			
MEDICATION	DYMISTA 137/50 MCG NASAL SPR 120SPR			
QUANTITY	23	PATIENT ALLERGIES		
DIRECTIONS	SHAKE LIQUID AND USE 1 SPRAY IN EACH NOSTRIL TWICE DAILY FOR 7 DAYS			

INGREDIENT NAME: Azelastine and Fluticasone (a ZEL as teen & floo TIK a sone)

COMMON USES: It is used to ease allergy signs.

BEFORE USING THIS MEDICINE: WHAT DO I NEED TO TELL MY DOCTOR BEFORE I TAKE THIS DRUG? TELL YOUR DOCTOR: If you have an allergy to azelastine, fluticasone, or any other part of this drug. **TELL YOUR DOCTOR:** If you are allergic to any drugs like this one, any other drugs, foods, or other substances. Tell your doctor about the allergy and what signs you had, like rash; hives; itching; shortness of breath; wheezing; cough; swelling of face, lips, tongue, or throat; or any other signs. This drug may interact with other drugs or health problems. Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, vitamins) and health problems. You must check to make sure that it is safe for you to take this drug with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

HOW TO USE THIS MEDICINE: HOW IS THIS DRUG BEST TAKEN? Use this drug as ordered by your doctor. Read all information given to you. Follow all instructions closely. Do not take this drug by mouth. Use in your nose only. Keep out of your mouth and eyes (may burn). Shake well before use. Prime pump before first use by spraying it 6 times or until you see a fine mist. If you have not used the spray for more than 14 days, you will need to prime the pump with 1 spray or until you see a fine mist. Blow your nose before use. Close 1 nostril. Tilt your head forward a little. Put nose spray tube into other nostril. While breathing in through the nose, press down once to release spray. Breathe out from your mouth. Spray up the nose only. Do not spray onto the wall joining the two nostrils. If you get this drug in the eyes, flush right away with cool water and get medical help. **HOW DO I STORE AND/OR THROW OUT THIS DRUG?** Store upright at room temperature. Do not freeze. Throw away any part not used after 120 sprays. Protect from light. Keep all drugs in a safe place. Keep all drugs out of the reach of children and pets. Check with your pharmacist about how to throw out unused drugs. **WHAT DO I DO IF I MISS A DOSE?** Use a missed dose as soon as you think about it. If it is close to the time for your next dose, skip the missed dose and go back to your normal time. Do not use 2 doses or extra doses.

CAUTIONS: Tell all of your health care providers that you take this drug. This includes your doctors, nurses, pharmacists, and dentists. Avoid driving and doing other tasks or actions that call for you to be alert until you see how this drug affects you. When changing from an oral steroid to another form of a steroid, there may be very bad and sometimes deadly side effects. Signs like weakness, feeling tired, dizziness, upset stomach, throwing up, not thinking clearly, or low blood sugar may happen. Call your doctor right away if you have any of these signs. If you have a bad injury, have surgery, or any type of infection, you may need extra doses of oral steroids. These extra steroids will help your body deal with these stresses. Carry a warning card saying that there may be times when you may need extra steroids. Talk with your doctor if you come into contact with anyone who has chickenpox or measles and you have not had chickenpox, measles, or the vaccines for them. If you have had any recent nose surgery, injury, ulcers, or sores, talk with your doctor. Talk with your doctor before getting any vaccines. Use with this drug may either raise the chance of an infection or make the vaccine not work as well. Talk with your doctor before you drink alcohol or use other drugs and natural products that slow your actions. This drug may raise the chance of cataracts or glaucoma. Talk with the doctor. Have an eye exam as you have been told by your doctor. This drug may cause harm if swallowed. If this drug is swallowed, call a doctor or poison control center right away. This drug may affect growth in children and teens in some cases. They may need regular growth checks. Talk with the doctor. Tell your doctor if you are pregnant or plan on getting pregnant. You will need to talk about the benefits and risks of using this drug while you are pregnant. Tell your doctor if you are breast-feeding. You will need to talk about any risks to your baby.

POSSIBLE SIDE EFFECTS: WHAT ARE SOME SIDE EFFECTS THAT I NEED TO CALL MY DOCTOR ABOUT RIGHT AWAY?

WARNINGS/CAUTION: Even though it may be rare, some people may have very bad and sometimes deadly side effects when taking a drug. Tell your doctor or get medical help right away if you have any of the following signs or symptoms that may be related to a very bad side effect: Signs of an allergic reaction, like rash; hives; itching; red, swollen, blistered, or peeling skin with or without fever; wheezing; tightness in the chest or throat; trouble breathing or talking; unusual hoarseness; or swelling of the mouth, face, lips, tongue, or throat. Signs of infection like fever, chills, very bad

sore throat, ear or sinus pain, cough, more sputum or change in color of sputum, pain with passing urine, mouth sores, or wound that will not heal. Very bad dizziness or passing out. Very upset stomach or throwing up. Feeling very tired or weak. Bad nose irritation. Crusting in the nose. Runny nose. Whistling sound when you breathe. Change in eyesight, eye pain, or very bad eye irritation. Bad nosebleeds. Redness or white patches in mouth or throat. Feeling sleepy. **WHAT ARE SOME OTHER SIDE EFFECTS OF THIS DRUG?** All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not go away: Headache. Nosebleed. Nose irritation. Change in taste. These are not all of the side effects that may occur. If you have questions about side effects, call your doctor. Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088. You may also report side effects at <http://www.fda.gov/medwatch>.

OVERDOSE: If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.

ADDITIONAL INFORMATION: If your symptoms or health problems do not get better or if they become worse, call your doctor. Do not share your drugs with others and do not take anyone else's drugs. Keep a list of all your drugs (prescription, natural products, vitamins, OTC) with you. Give this list to your doctor. Talk with the doctor before starting any new drug, including prescription or OTC, natural products, or vitamins. Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about this drug, please talk with your doctor, nurse, pharmacist, or other health care provider.

Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

Do not flush unused medications or pour down a sink or drain.
