PATIENT JEFFREY BODIN	DOCTOR PBR: S. WARRINGTON	DRUG DESCRIPTION
BIRTH DATE 05/22/97		LIQUID
MEDICATION OFLOXACIN 0.3% OPH SOLN 5ML (EYE)		
QUANTITY 5	PATIENT ALLERGIES <ALLERGY HISTORY NOT KNOWN>	
DIRECTIONS INSTILL 4 DROPS IN AFFECTED EAR(S)/ RIGHT EAR TWICE DAILY FOR 10 DAYS		

INGREDIENT NAME: Ofloxacin (Ophthalmic) (oh FLOKS a sin)

COMMON USES: It is used to treat eye infections.

BEFORE USING THIS MEDICINE: WHAT DO I NEED TO TELL MY DOCTOR BEFORE I TAKE THIS DRUG? TELL YOUR DOCTOR: If you have an allergy to ofloxacin or any other part of this drug. TELL YOUR DOCTOR: If you are allergic to any drugs like this one, any other drugs, foods, or other substances. Tell your doctor about the allergy and what signs you had, like rash; hives; itching; shortness of breath; wheezing; cough; swelling of face, lips, tongue, or throat; or any other signs. TELL YOUR DOCTOR: If you are breast-feeding or plan to breast-feed. This drug may interact with other drugs or health problems. Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, vitamins) and health problems. You must check to make sure that it is safe for you to take this drug with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

HOW TO USE THIS MEDICINE: HOW IS THIS DRUG BEST TAKEN? Use this drug as ordered by your doctor. Read all information given to you. Follow all instructions closely. To gain the most benefit, do not miss doses. Use as you have been told, even if your signs get better. Use this drug at the same time of day. For the eye only. Wash your hands before and after use. Do not touch the container tip to the eye, lid, or other skin. When using, tilt your head back. Gently pull down the lower lid and squeeze in how much the doctor told you to use. After use, keep your eyes closed. Put pressure on the inside corner of the eye. Do this for 1 to 2 minutes. This keeps the drug in your eye. Avoid wearing contacts unless told to wear them by your doctor. HOW DO I STORE AND/OR THROW OUT THIS DRUG? Store at room temperature. Do not freeze. Keep all drugs in a safe place. Keep all drugs out of the reach of children and pets. Throw away unused or expired drugs. Do not flush down a toilet or pour down a drain unless you are told to do so. Check with your pharmacist if you have questions about the best way to throw out drugs. There may be drug take-back programs in your area. WHAT DO I DO IF I MISS A DOSE? Use a missed dose as soon as you think about it. If it is close to the time for your next dose, skip the missed dose and go back to your normal time. Do not use 2 doses at the same time or extra doses.

CAUTIONS: Tell all of your health care providers that you take this drug. This includes your doctors, nurses, pharmacists, and dentists. Use care when driving or doing other tasks that call for clear eyesight. Bright lights may bother you. Wear sunglasses. Do not use longer than you have been told. A second infection may happen. Very bad and sometimes deadly allergic reactions have rarely happened with other forms of this drug as well as drugs like this one. Talk with the doctor. Tell your doctor if you are pregnant or plan on getting pregnant. You will need to talk about the benefits and risks of using this drug while you are pregnant.

POSSIBLE SIDE EFFECTS: WHAT ARE SOME SIDE EFFECTS THAT I NEED TO CALL MY DOCTOR ABOUT RIGHT AWAY? WARNING/CAUTION: Even though it may be

rare, some people may have very bad and sometimes deadly side effects when taking a drug. Tell your doctor or get medical help right away if you have any of the following signs or symptoms that may be related to a very bad side effect: Signs of an allergic reaction, like rash; hives; itching; red, swollen, blistered, or peeling skin with or without fever; wheezing; tightness in the chest or throat; trouble breathing, swallowing, or talking; unusual hoarseness; or swelling of the mouth, face, lips, tongue, or throat. Change in eyesight, eye pain, or very bad eye irritation. Joint pain or swelling. A very bad skin reaction (Stevens-Johnson syndrome/toxic epidermal necrolysis) may happen. It can cause very bad health problems that may not go away, and sometimes death. Get medical help right away if you have signs like red, swollen, blistered, or peeling skin (with or without fever); red or irritated eyes; or sores in your mouth, throat, nose, or eyes. WHAT ARE SOME OTHER SIDE EFFECTS OF THIS DRUG? All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not go away: Burning. Eye irritation. These are not all of the side effects that may occur. If you have questions about side effects, call your doctor. Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088. You may also report side effects at <http://www.fda.gov/medwatch>.

OVERDOSE: If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.

ADDITIONAL INFORMATION: If your symptoms or health problems do not get better or if they become worse, call your doctor. Do not share your drugs with others and do not take anyone else's drugs. Keep a list of all your drugs (prescription, natural products, vitamins, OTC) with you. Give this list to your doctor. Talk with the doctor before starting any new drug, including prescription or OTC, natural products, or vitamins. Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about this drug, please talk with your doctor, nurse, pharmacist, or other health care provider.

KEEP OUT OF REACH OF CHILDREN: STORE IN SAFETY CONTAINER OR SECURE AREA.

Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

Do not flush unused medications or pour down a sink or drain.
