

Apologetics of Islam and the errors of Quran.

We see that Muslims believe that the Quran is without error.

When looking to the Quran we can tell this is not true.

The Quran 2:29 in baqarah says that Allah had created everything in **earth first**.

It then proceeds to say THEN afterwards he turned towards heaven to create things in heaven.

Quran-2:29: He is the One Who created everything in the earth for you.

Then He turned towards the heaven, forming it into seven heavens. And He has 'perfect' knowledge of all things.

In the Quran 79 it clearly says that Allah constructed the **heavens first**.

It then proceeds to say that after heavens are created he then begins to spread the earth.

Quran- 79:27-30

Are you a more difficult creation or is the heaven? Allah constructed it.

He raised its ceiling and proportioned it.

And He darkened its night and extracted its brightness.

And **after that** He spread the earth.

This is proof the Quran cannot be trusted as a legitimate source.

The creation account itself cannot be inspired text.
