

2020-02-19 Dr Pelaez Appt Notes

Notes:

- Procedure on 2020-02-19 is for:
 - Ear wax procedural cleaning/removal.
 - Started from previous appointment Aug 21st, 2019. With Dr. Pelaez.
 - Supposed to continue to renew procedure to clean ears. Every 6 months.
 - As to prevent ear infections + damage to my ear canal/ear drums/etc.
 - As per Dr. Pelaez instructions on that appt.
 - Took ear drops to loosen the wax for this follow-up appt 6 months later.
 - Currently as of writing 2020-02-17 possibly having issues with hearing. Assuming b/c of likely wax etc. As per usual.
 - Also, b/c Dr. Pelaez was unable to remove all wax the first/previous appt.
 - Probable causes for issues:
 - The wax buildup that happens regularly. On my ear drum/in ear canal.
 - Have been getting ears cleaned through this, and similar procedures for many many years.
 -
 - In past it has gotten bad enough to greatly limit hearing until cleaning was performed. To extent had difficulties even hearing near my person. Including being unable to determine direction of voices around myself as was that prohibitive to hearing.
