Dear Jeffrey T Bodin,

At MD Anderson Cancer Center, we are always interested in the past, present and future health and well-being of our patients. In accordance with requirements of the American College of Surgeons Commission on Cancer, the MD Anderson Cancer Registry follows all patients seen at any MD Anderson facility and diagnosed with cancer. Even if you have moved away, or are seeing physicians at other institutions, it is still important for us to collect this information because it helps us to evaluate the quality of care we provide to all of our patients. Please be assured that we will maintain the highest level of confidentiality with your information.

To help us keep the Cancer Registry current and accurate, please answer the following questions regarding your health and return the completed form or you may respond on our secure website by typing www.mdanderson.org/TumorRegistrySurvey into your browser's address bar.
