

## Ideogram

*Your haughtiness  
penetrated my eyes,  
camouflaged in the features  
of a fascinating ideogram,  
strokes of black ink  
stretched with mastery  
on the white canvas of my naivety.  
A seal that closed my mouth,  
but not my imagination.*

*Then I had no choice  
but to imagine those dark traits  
like crows on the snow,  
and with carefree spins  
make them fly away.*
