

Osmosis | Italian Educational Content

Who is ITA Stakers

ITA Stakers runs validator services since early 2019 when Cosmos Hub launched. We don't only run validator nodes but we are also developers, and we participated at several hackatons creating some tools in the network we follow.

Right now we have 3 validators in the active set: Bitsong, Sentinel and Osmosis for a total delegated value of around 3M~ USD.

We are also participating in some testnets like Desmos and Juno.

We are also providing reliable full-nodes for Keplr wallet on Sentinel Hub.

We constantly follow the evolution of the chains that we support by participating in testnets and proposals and being always active in supporting communities and validators.

We have good validators setup with monitoring sentries, relayers and hsm.

Proposal

We are requesting a community pool spend to create high-quality educational content about Osmosis for the Italian Proof of Stake community.

In detail

Medium articles & Tutorials in Italian Language

- Introduction to Osmosis (already published)
- Deposit IBC assets
- Swap tokens
- How to provide liquidity
- Earn liquidity rewards
- Understanding the 'how' behind Osmosis yield farming works (token locking mechanism, incentive allocation, etc)

Video Tutorial

- What is Osmosis
- How to use Osmosis App
 - Trade
 - Pools
 - Airdrop

- Assets
- Stake
- Vote

Budget allocation

We are requesting 30000 OSMO that will be administered on a multisig wallet owned by some well known italian community members:

- ITA Stakers → @zaketac
osmopub1addwnpepqv3z3pw99qtg6mqwvfgyhznzgeqc2c08nwsfr8rq9ftc708yhwgeh73z5d7j
- Dimi 🦌 → @dimiandre
osmopub1addwnpepqv5cnrxzesdkhuy86qt6e7nshpgqmr3fvpsf9hcr0w49hudlete8x6fjlvn
- Angelo Recca [BitSong] → @bitangel84
osmopub1addwnpepqdxsd4x2wfl5erqx62xjwlfrhnnhsqvhctrfwwt3urjzr79c3wxgwwv742l

Multisig Wallet Address

osmo19kuuumv24cp53ks4fp2cvm96z6s8wj3v7yjn5

Funds will be staked to ITA Stakers validator for at least 12 months.

Part of staking rewards and commission will be used to cover the expenses, the rest compounded again as long term support to osmosis project.

The whole proposal is intended to be as an help to our long term commitment and not limited to only the contents mentioned above. In the future we would like to organize also in person events, as soon COVID restrictions permit.
