- Called to ask “what I wanted out of it” i.e. out of the testing specifically. To specifically allot enough time and such.
  - Note: she was the one who did/proctored in some way my testing on/around 6/3/2008.
  - She claims to have met me and my mother those years ago.
- In 2008 (tests administered)
  - Had Woodcock Johnson Tests of Achievement, Third Edition-selected subtests
  - Children’s Memory Scale, selected subtests (CMS)
- In 2008 (tests planned/not administered)

    - Not administered b/c of “fatigue”

2019-10-02 update

11:00 am rec call 504-896-9484

- Dr. Diane Franz (psychologist). Message receptionist calls left message. Said they were going to move the appointment.
- But, that no longer is the case and receptionist stated this. So appt stays the same for 2019-11-08 9:00 am

11:16 am call 504-896-9484

- Called receptionist back. Re-confirmed that my appointment is in fact on 11/08/19 9:00 am.
- She said that from Dr. Diane Franz's (psychologist) email. That the psychologist just wanted to confirm w/me that my appointment had stayed the same.
  - Ie that there was now no actual reasons to change said appointment. So the originally created date was fine, and would be what was used.
- I asked/was trying to clarify about how Dr. Franz initially on her og voicemail. Wanted to "coordinate" the specific testing beforehand.
  - Receptionist sent her a message to "ask her to call me back". So that I could speak to her myself and clear everything up.

- Even tho it seemed, and receptionist speculated herself. That the psychologist may not need to coordinate anything/ask/have any more questions of me. Surrounding my future testing, preceding the testing itself.
