WATCH COMMITTEE CONCLUSIONS - 12 July 1961

On the basis of findings by its Watch Committee, the United States Intelligence Board concludes that:

No Sino-Soviet Bloc country intends to initiate direct military action in the immediate future.

Laos: The strength and capabilities of Communist forces in Laos continue to increase. There are no developments indicative of a change of Communist objectives or tactics with respect to Laos.

Nationalist China: The growing disillusionment of Chiang Kai-shek over what he considers are Communist gains in Asia and likely changes in US policy may lead him to undertake probing moves against the mainland
